ELECTION OF SPECIES

Examiner has selected groups of figures to define patentable distinct species, as follows:

Specie #	Figure Numbers:
1	1,2,3,7,9
2	1,2,3,8,9
3	1,4,4A(fig.5), 7
4	1,4,4A(fig.5),8
5	1,6,7
6	1,6,8

Applicants note that specie #2 is directed to both parallel orientation of microelectrodes (fig.8) and to radial orientation of microelectrodes (fig.9).

Applicants elect specie #1 represented by figures 1,2,3,7 and 9. Applicants believe that claims 12, 13 and 17 best describe and claim the characteristics shown in the selected figures.

A complete listing of all claims including their status on a separate sheet is provided as required by 37 CFR 1.121. Claim cancellation is without prejudice.

An amendment to claim 17 to correct a typographical error has been made.

INVENTORSHIP:

Applicants have advised that cancellation of claims 1-11, 14-16 and 18-22 does not affect the roster of inventors and that no change in inventorship is required.

Favorable action by the examiner is respectfully requested.

SINCERELY,

DANIEL KRAMER
